

AM SUPERHET RECEIVER

Based on a design by Ronald Quan in "Build your own Transistor Radios", p. 105.
Adapted for locally available components (in Australia) by Luc Small, June 2013

Changes:

- IF coils drawn to reflect connections required for Jaycar-sourced coils viewed from top
- Ferrite antenna connections changed to suit 3-pin common ground tuning capacitor

Notes:

- Oscillator and IF coils come from Jaycar LF1050 coil pack
- OSC1, IFT1, IFT2, IFT3 drawn as viewed from top
